Joseph Boliček was born 11 Dec 1729 in Bohemia, now part of the Czech Republic.

Moravian records* list Cöhnon (perhaps Kolin) and Tumigad (perhaps Tuněchody) as the city of his birth. Archives record Boličeks in Tuněchody in the 1720's. 83 miles.

 21 Nov 1745 Joseph (age 15) went to <u>Niesky</u> to attend the Moravian school.

- 30 Jul 1746 he went to <u>Herrnhut</u> and was received into the Moravian Church.
- Both Niesky and Herrnhut were Moravian communities in present day Germany.

Joseph (age 24) departed London* on 22 Sep 1754 aboard the Moravian ship Irene. The ship arrived in New York on November 16, 1754, a trip of 55 days.

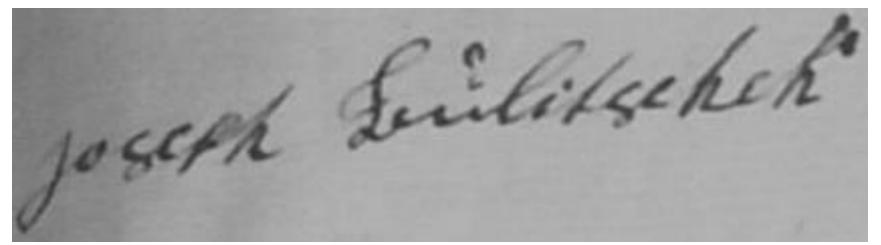

Migration to Pennsylvania

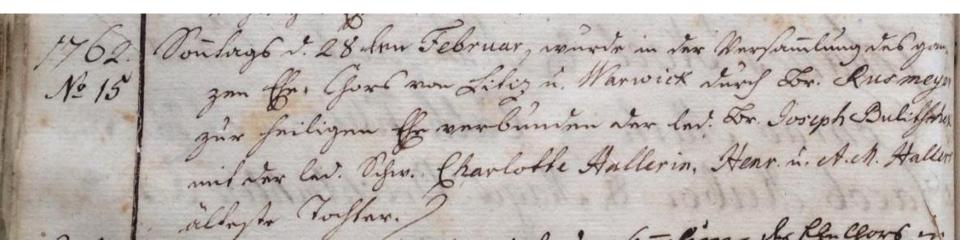

- 5 Dec 1754 Joseph (age 24) arrived in <u>Bethlehem</u>, <u>PA</u>.
- 27 Apr 1759 Joseph (age 29) moved to <u>Lititz, PA</u>. He was a carpenter, helping to build the "choir houses".
- These were both Moravian communal* villages.

In 1762 Joseph (age 33) lived with the John Thomas family 105 N. Main in Lititz, signing a lease.

"On the 28th February (1762 age 32) the Single Brother Joseph Ferdinand Bullitschek, carpenter, was joined in marriage to the Single Sister Charlotte Haller [age 20], daughter of our Brother (Johann Heinrich Haller) and Sister (Anna Marie Hundsecker) Haller, by Br. Rusmeyer, and settled here as an inhabitant of the Settlement [Lititz, PA]."

Migration to Wachovia, North Carolina 1752

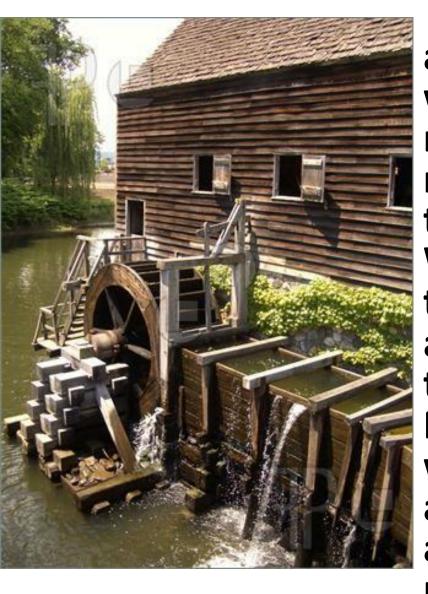

"On the 4th of June [1771], apart from the Company journeying to Wachovia [North Carolina] as mentioned above, Brother and Sister Bullitschek and their 4 children began their journey to Carolina." Charlotte was five months pregnant with son Samuel Heinrich.

"On the 10th of June Br. Haller [Joseph's father-in-law] came back from accompanying Brother and Sister Bullitschek as far as Friedrichtown [Frederick, Maryland 106 miles] with good reports of the progress of both companies to that point."

Joseph (age 24) was often listed as a carpenter. While in Lititz, he learned how to build pipe organs and waterpowered mills. Joseph was contracted to build an organ for the Bethania Parish House, NC. It was completed on 10 Sep 1773. This organ was destroyed by a fire on 3 Nov 1942. The church now has a replica.

While in Lititz, Joseph also learned how to build water-powered mills, which ran grain, saw and textile mills. Mills were essential for the development of Wachovia, and Joseph was the only millwright in the area. Whenever contracted to build a mill by the Moravian leaders, they would always try to send another carpenter to watch and learn how to build the mills as Joseph's rates were rather steep.

Joseph always refused help, saying he had his four sons to help. It was also quite common for Joseph to request additional money before completing a mill. The Moravian leaders who recorded all these activities often seemed a little irritated at Joseph for not sharing his knowledge on mill construction.

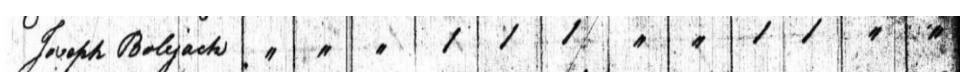

Revolutionary Times

Before 1783, Joseph Bulitschek took the Affirmation of Allegiance to the American cause. Because the Moravians were pacifists, they were allowed to pay someone to serve in their place. There is no evidence that Joseph hired anyone. Although pacifists, the Moravians provided support to the American cause by housing soldiers, providing medical care and supplies.

 1790 Stokes Co, NC census – 1 m under 16 [George Friedrich], 3 males over 16 [sons Joseph, Samuel, Matthaus – John had married in 1786], 4 females [wife Charlotte, and daughters Anna Maria, Maria Elizabeth, Charlotta Catherina]

 By 1792 Joseph and family were no longer members of the Moravian Church.

1800 Stokes Co, NC census - 1 m 26-45 (Joseph, Jr), 1 m 45+ (Joseph, Sr who died in 1801), 1 f under 10 (?????), 1 f 26-45 (probably his sister Anna Maria), and 1 f 45+ (his wife Charlotte). The rest of his children were on their own, so not listed.

Joseph's Will 22 Oct 1799

Joseph gave his wife Charlotte all the household furniture, a mare and a cow. Son Joseph had already partially paid for a mill and some land, his share to be a fully paid 1/2 of the mill and land. The other half of the mill was to belong to his wife Charlotte for the remainder of her life. After her death, the value of the half was to be divided among his six children: Joseph, John, Samuel, Matthew, Anna Maria and Elizabeth. His other tract of land on Muddy Creek where sons Samuel and John farmed was to be sold and the profits divided among the 6 children. Single daughter Anna Maria was to have a horse and two cows with their calves. All of the tools of his trade were to be divided among his 4 sons. Son Joseph and wife Charlotte were named executors.

Death 1801

Joseph's will was probated in Jun 1801. It is assumed that this is Joseph's gravestone in **Westmoreland Cemetery** (Forsyth Co, NC). Just 9 years earlier, his daughter was buried in **Shiloh Lutheran Church Graveyard** near Lewisville.

They asked that she be buried in our God's acre, but the request was refused by the Committee." Only members of the congregation could be buried in a Moravian cemetery with few exceptions. The Salem Diary reported that "on 09 June 1792, Br. Kramsch went ten miles from Salem to hold the funeral of Charlotte Boletzcheck, whose parents formerly belonged to the Unity (Moravian Church)." A Forsyth Co., NC. record states that interment was in the Old Shiloh Lutheran Cemetery (also known as Muddy Creek) near Lewisville, Stokes Co., NC. There is no gravestone for her in this cemetery.
